

The Reial Club Nàutic Portopetro develops the following activities within its scope:

- Management of the use of spaces for commercial and port services.
- Management of port services.
- Management of execution of works and projects.

The Direction of **Reial Club Nàutic Portopetro** as the main points of the organisation has the following ENVIRONMENTAL COMMITMENT:

- Comply with all relevant **environmental legislation** related to port operations.
- Commit to building on the environmental management to achieve through a process of **continuous environmental improvement**.
- Establishing **objectives and measurable targets** so that improvements in environmental performance will be monitored.
- Improve the organisation process with the objective to make a **rational use of resources**.
- Seek to **minimise significant environmental impacts** of our activities and prevent the pollution.
- **Raise staff and customer awareness** of the environmental issues and the environmental effects of Club activities through communication and training.
- Establish efficient **communication channels** with all interested groups in environmental issues and maintain good collaboration attitude with authorities.

The Management has the commitment to supply all the human and material resources needed to apply this policy and to achieve the maintenance and improvement of the environmental management system.

This policy is available to the staff, costumers, the public and other interested parts.

Portopetro, 02.02.2018

President of R.C.Nautic Portopetro
